

**No Time?
No Money?
No Problem!**

"My budget's been cut."

" My staff's been cut."

"I have no time to attend training to get the tools I need."

"I'm tasked with developing training for others but I need help!"

We've been hearing this... ***a lot!***

And, we've got your back with our new

Training Essentials Virtual Minis

These 60 minute virtual training sessions are crafted with keen attention to those L&D competencies you need to be your best.

What's a Training Essential Virtual Mini?

A 60-minute, dynamic, virtual learning experience *bursting* with 'just in time' tools, tips and expertise that you can use as soon as you sign off.

What Are My Viewing Choices?

1. You can register for an upcoming live, virtual instructor-led session. Afterwards, you'll receive a link to the recording to view at any time.
2. You can purchase and view a session that has already been recorded.

What's Included?

Here's what is also included in the cost of the session:

- A **downloadable workbook**. It is yours to keep and use both during the session and as a resource in the future.
- An opportunity to attend **Virtual Office Hours** with Team M&M (Melissa Smith and Maria Chilcote, owners of The Training Clinic) or one of our fantastic senior facilitators.

What's the Cost?

\$60 each. That's a *lot of learning* for only a buck a minute!
